Space to Pace is composed of talented musicians who bring energy and passion to every performance. We focus on the details and play the hits as if they were the same records plus a touch of our own flavor. Our music combines the traditional foundations of tropical music with new rhythms that make the show versatile, respecting the sounds that have made our music popular around the world. We involve our audience with lively performances and interactive elements that encourage participation and enjoyment of those present.

Here are some of the different formats we offer at Space to Pace, which are tailored to the type of event you are planning. We have a versatile repertoire that covers many of the representative rhythms of our Latin culture, such as merengue, bachata, cumbia, cha cha, Cuban son, and more, even combined with hits from Anglo-Saxon culture.
